About

14+ years designing consumer and B2B products. I drive AI design strategy at PandaDoc — shaping how documents get created, negotiated, and signed in the age of AI. Earlier, I founded and scaled design at Impress (1→5) and helped build the mobile arm of Yandex.Market, where revenue grew 4×.

Experience

PandaDoc
Staff Product Designer
Feb 2025 — Present

Drive AI design strategy for the document platform — generative document creation, model training, and metadata — turning research into shipped AI experiences people trust.

Shares
Product Design Lead
Jun 2022 — Feb 2025

Owned a single design strategy across growth, brand, and product for the European social-investing app. Built its scalable design system, led growth design, and guided the design team through the UK launch and EU expansion.

Impress
Founding Product Designer → Product Design Lead
May 2020 — Aug 2023

Founded the design and research wing at the Barcelona orthodontic startup heading toward a $125M Series B. Grew design from one person to a five-person department embedded across the company.

Yandex
Senior Product Designer
Mar 2017 — Aug 2020

Founding designer of Yandex.Market's mobile branch — revenue grew 4× and the unit became the core of Yandex's e-commerce business. Grew from designing screens to leading the mobile design department.

Rambler Group
Product Designer
May 2016 — Mar 2017

Designed three new media platforms 0→1 and grew ad revenue across 12 established media services for the major Russian media conglomerate.

Webinar
Product Designer
Feb 2015 — Apr 2016

Revamped and expanded the product range for Russia's largest webinar platform, partnering with a digital agency. Launched a B2B online-course product from scratch.

Zelenski
Product Designer
Dec 2013 — Feb 2015

Traded freelancing for an in-house product seat at the sole Russian partner of Egencia, Expedia's business-travel arm — designing across nine travel services.
